ORTE THEATER PRESENTS "THE WIFE OF MONTE CRISTO" SUNDAY AND MONDAY

Designed for the young in heart, "The Wife of Monte Cristo" is a production combines skillful swordplay with deed of derring-do, laid against the colorful background of Paris in the year 1832. John Loder, starred as the villain of the piece, takes the acting laurels though in the interests of justice he comes to no good end.

Lenore Aubert is lovely in the title role, and Martin Kosleck makes a somewhat sinister Monte Cristo. After an overlong resume of the Dumas classic which suggested the story to its adopters, Franz Rosenwald and Edgar G. Ulmer, Dorcas Cochran's screenplay gets on with the further adventures of the Count and his reckless young cousins.

Out for vengeance against those responsible for his imprisonment in the Chateau d'If, and justice for the people of Paris, who are being bamboozled by an unscrupulous prefect of police and his rascally associates, the pair engage in a series of skirmishes with the Gendarmier. The countess, having dispatched one of the villains with neatness and skill, is imprisoned by the prefect.

The ending will thrill the audience to a most welcome dashing style which will make you remember "The Wife of Monte Cristo."

FLEAS 13 — FLIES 7

Sunday afternoon, December 1, the annual Flea-Fly grid tilt climaxed the football season at St. Stanislaus. It was truly a great game played for a great cause.

In the pre-game ceremonies the band marched through the town followed by the Fleas and Flies, 107 strong, then to the stadium where the Stanislaus band in midfield played the Alma Mater.

The opening of the game found the Flies receiving the kickoff. Interest was sparked by a thirty yard run by Billy Rhodes.

The first score came when the First Squad Fleas blocked their opponent's punt on the Fly 6 yard stripe, with two minutes of play left in the first period. Clayton Barre, a Flea, went around his left end for the touchdown. Barre then made the conversion.

The longest run of the game came when little Tommy Schoen, 73 pound Fly, ran 65 yards on a Flea fumble putting his team in deep Flea territory. The Flies then drove down to the Flea 12 yard line and were goal-line bound when the Fleas intercepted one of their passes.

In the closing two minutes of the third quarter Billy LeMaitre of the Fleas skirted around his own left end for 22 yards and a touchdown. Cuevas tried to run for the extra point but was stopped.

Little Donald Ward, a Fly, played a great game while his team was on the field. In the fourth period he ran over his own tackle for the lone Fly touchdown. He also made the conversion. Later on a punt from Ingelhorn of the Fleas, Ward skirted down the sidelines for 35 yards.

The last play put the Flies in deep scoring territory but after three attempts to make a first down were forced to punt. Billy Rhodes on the punt ran 40 yards for the Fleas, and again ran the ball to the Fly 13 where the Flies held out and took over the ball. Billy Rhodes then made a spectacular pass interception with seconds left in the game, but time ran out on the Flies, and they were not able to score again.

Final score Fleas 13, Flies 7. In the past 30 years the Flies have won 12 games and the Fleas 10 and 8 games ended in ties.

Mrs. Wilbur McArthur and all her family spent Sunday in New Orleans at the home of Mr. and Mrs. C. E. Givens on Washington ave., where a welcome home party was given by Mrs. Esther Facio for her husband former Cpl. Joseph Facio, sixty-five attended. All had a wonderful time.

From where I sit... by Joe Marsh

Our Town Has a Rip Van Winkle

You may not believe that headline, but it's true. His name isn't "Rip"—it's "Slim"—Slim Wilson, and he just moved into our town from "dry" Rankin County.

According to Slim, it was like moving from 1928 to 1946. He's left that period of gangsterism, poisoned booze, and juvenile delinquency—and arrived in an era of licensed taverns, wholesome beer, and law and order.

Now, of course, Rankin County's really only miles—not

years—away. But the difference is just as great. There, under local option, they have all the tragic evils of that mistake.

From where I sit, two wrongs will never make a right. The evil of intemperate drinking added along to the wrongs of local option will never total up to the temperance and law-abiding atmosphere we have here in our town.

LAKESHORE NEWS

Visitors in the home of Mr. and Mrs. Prentice Moran for the Thanksgiving season were Mr. and Mrs. R. A. Mobley and family. Mr. and Mrs. E. R. Rinehart and family of Port Arthur, Texas. Mrs. Moran had the pleasure of having her son and daughter and their families with her for several days. Two of the grandchildren remained for a longer visit and Mr. and Mrs. Moran will take them back to Texas at Christmas time.

Mr. and Mrs. B. D. Johnson are the proud parents of a 10-pound, 4 ounce son. The young man has been given the name of Larry Douglas. At present he and his mother are in Bay St. Louis at the Kings Daughters Hospital.

The community was grieved over the death of Mrs. Jesse LaFontaine which occurred Sunday afternoon in New Orleans at Touro Infirmary. Mrs. LaFontaine had been a patient in the Kings Daughters Hos-

pital Bay St. Louis before being sent to Touro.

Her remains were brought to Fehy's Funeral Parlor and burial took place Tuesday morning in the Bayou Cadet cemetery following religious rites in the Bayou Cadet Catholic church. Rev. Father Victor Boisvert conducted the services.

Mrs. LaFontaine's maiden name was Cecile Ladner. She was the daughter of the late Mr. and Mrs. Charles Ladner. Besides her husband Mrs. LaFontaine leaves two sons, Jesse, Jr., and Floyd and one daughter, Theresa, and many other relatives.

The many beautiful floral offerings gave testimony of the love and sympathy of her relatives and friends.

Mr. and Mrs. John Fischer and daughter Joan, Mrs. Fischer, Sr., and Mrs. Sweat of New Orleans, were Sunday guests of Mr. and Mrs. John Hourbright at Myrtle Grove Farm.

Over 300,000,000 Kilowatt Hours

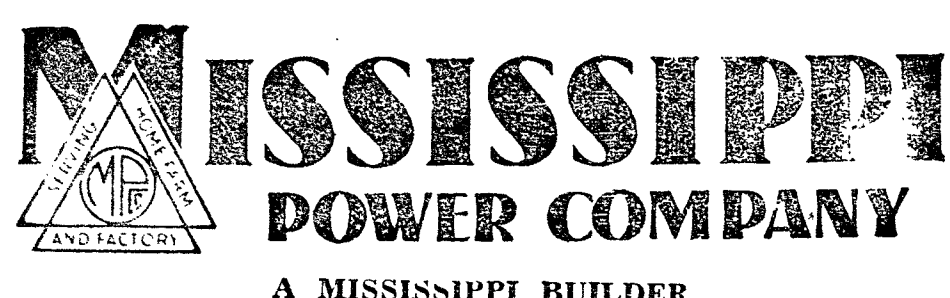

In 1925, the first year of operation of the Mississippi Power Company, between twenty-five and thirty million kilowatt hours of electricity was used in the entire area now served by the Company. During World War II and post-war years, between 300 and 350 million kilowatt hours have been used annually that amount of energy is roughly equivalent to the amount of work which would be produced by 2,000,000 able bodied men in a normal work year.

One of the indicators of the economic development of an area is the use of electricity in farm, home, and factory. In this respect the area served by the Company has had a rate of growth in the last fifteen years almost twice as great as for the nation as a whole.

When the Mississippi Power Company was organized one of the stated objectives was to work for the development of this area not only by having electricity available to meet every demand but also by actively participating in efforts to attract new industries to this area, and help in any way possible to raise the economic level.

The economic development of the area has made and is continuing to make rapid strides forward. To meet this growth requires millions of dollars invested in new power facilities. These expenditures are being made—creating new generating plants and many miles of line from which will flow increasing millions of kilowatt hours to serve the section's needs.

21,747 World War II Veterans Receive Compensation Payments

Jackson—In Mississippi 21,747 World War II veterans are receiving monthly compensation payments as a result of disabilities incurred in the armed forces, C. G. Gould, Veterans Administration Regional Adjudication Officer, disclosed today. A total of 125,215 World War II veterans are now receiving monthly payments for service-incurred disabilities in the Mississippi-Louisiana-Texas VA Branch Area, Mr. Gould said. A nation-wide tabulation shows that more than 1,647,000 World War II veterans are now being compensated monthly for disabilities. The average monthly payment for these disabled veterans is approximately \$42. Mr. Gould said, explaining that compensation payments for service-connected disabilities range from \$13.80 to \$360 a month depending on the degree and type of disability.

Thus far, 45,408 or about 20 percent of the Mississippi World War II veterans have filed claims for disability benefits. Of the claims received and adjudicated by VA, approximately one out of every two has resulted in an award.

Veterans' News

Schools and colleges that must provide additional facilities to train disabled veterans may ask the Veterans Administration to pay more than their usual tuition charges for these veterans. VA announced this week.

The adjusted rate, VA said, must not total more than the school's teaching and supply costs.

New regulations providing for adjustments in tuition payments for disabled veterans enrolled under the Vocational Rehabilitation Act apply only to non-profit, tax-supported institutions, VA said.

VA has provided for the adjustments because it recognizes that many schools do not have a flexible income from taxes, endowments and other sources to cover additional expenses incurred during the present rush of thousands of veterans to college.

VA has made similar provisions for adjustments in tuition of students enrolled under the GI Bill.

Application for adjustment in the rate must be made to the VA regional office having jurisdiction before the beginning of the semester for which the adjustment is asked.

VA is allowing all schools until December 3, however, to submit their requests for adjustments for the present semester if the term began on or after September 1.

Q. If a disabled veteran completed his on-the-job training and is unemployed can he draw unemployment compensation?

A. Yes. Under Public Law 346 (G. I. Bill), he may be entitled to readjustment allowance up to a

maximum of 52 weeks provided he is able to, and available for, work at the time. Any prior periods used for such purpose would be deducted from his maximum eligibility.

Q. May the wife or child of a veteran be granted hospital or domiciliary care by Veterans Administration because of the relationship to the veteran?

A. No. Admission to a Veterans Administration hospital or home is based on the service of a person in the armed forces and may be granted only to the persons who served.

Q. Is Veterans Administration issuing prosthetic service cards to amputee veterans?

A. Yes. Veterans wearing artificial limbs and who are entitled to repairs at Government expense may obtain a prosthetic service card. The card enables the veteran to obtain immediate repair service up to a limit of \$35 without prior approval from Veterans Administration.

Q. Is it possible for a disabled veteran taking vocational training under Public Law to make a small loan from the Government?

A. Yes, but loans cannot exceed \$100 and they are made only to veterans approved for vocational rehabilitation when the need is shown.

Q. Am I entitled to an increase in Compensation if my service-connected disability has increased since compensation was allowed?

A. Probably. The rate of increase of compensation depends upon the increase in disability as shown by proper examination by a VA physician and evaluation under the rating schedule.

...Marvelous Meats...

So many of our customers have come to us lately to tell us of the MARVELOUS STEAKS, or the MARVELOUS ROAST or the MARVELOUS SLICE OF HAM or the MARVELOUS CHICKEN or HEN that they had purchased from us that we decided to look up in Mr. Webster's dictionary and see exactly what they meant.

According to Mr. Webster the definition of marvelous is EXCITING MARVEL, CAUSING WONDER, ASTONISHING, WONDERFUL.

While we know a good tender steak is enough to excite marvel, a delicious, tasting slice of ham is astonishing and a good piece of fried chicken or baked hen is wonderful we are pleased to know ALL our meats contain ALL these qualities.

Come by and take home some of our MARVELOUS MEAT today. Also leave your order for a MARVELOUS TURKEY for your Christmas dinner.
